

QUICK START SUPPORT: AGI SOFTWARE PRODUCTS

QUICK START PROGRAM

The Quick Start program provides an AGI product expert at your location to reinforce concepts and techniques your team learns during our formal classroom training (included). This individual will show your engineers how to apply our products to your unique problems and how to maximize the benefit of the AGI products you've purchased.

INCLUDES:

- 1 20 days of on-site and reach-back support (typically 2-3 days/week over 6-10 weeks)
- 2 Optional one week free private training* at an AGI location

PROVISIONS:

- The AGI engineer focuses on the use of AGI products
- On-site support and optional training must be used within one year of purchase
- Domestic travel and living expenses are included in our fixed price

SERVICES INCLUDED IN QUICK START FOR DESKTOP PRODUCTS:

- Installation and licensing assistance
- Scenario development support
- Analysis support
- Scripting/automation assistance
- Optional tailored STK Comprehensive training

SERVICES INCLUDED IN QUICK START FOR DEVELOPER PRODUCTS:

- Example code
- Code walk-through
- AGI development/integration best practices
- Application development/integration assistance
- Application deployment assistance
- Optional tailored Programmers' Workshop training in Exton, PA

For more on AGI's Quick Start program or to enroll, contact your AGI representative at **1.800.220.4785** (toll-free in U.S./Canada) or **1.610.981.8000** or visit www.agi.com/services.

* Private training can be provided at customer location, but is not part of Quick Start.
